

ADVANCED PROGRAM IN INDUSTRIAL DATA SCIENCE & AI (APIIDS)

Learn Data Science with Gen AI & Agentic AI

Any Graduate can be a Data Scientist

Durations: 6-8 Months

Student Benefits:

Program Overview

The Advanced Program in Industrial Data Science & AI (APIDS) is a comprehensive industry-oriented training program designed to transform graduates and working professionals into highly skilled Data Science & AI practitioners.

This program provides a complete learning journey from Data Management, Data Analytics, Machine Learning, Deep Learning, Generative AI, Agentic AI, and Cloud Deployment to prepare candidates for modern AI-driven careers across industries.

The curriculum is designed by industry experts and focuses on practical applications, real-world projects, business problem-solving, and deployment of AI solutions in enterprise environments.

Why APIDS?

Today's organizations are looking for professionals who can:

- Manage large-scale data
- Analyze and visualize business performance
- Build Machine Learning & AI solutions
- Develop Generative AI Applications
- Build Agentic AI Systems
- Deploy AI Models on Cloud Platforms

APIDS is designed to build all these capabilities within a single integrated program.

Program Objectives

- Upon completion of this program, participants will be able to:
- Manage structured and unstructured data
- Perform advanced data analysis and visualization
- Apply statistical techniques for business decision making
- Develop Machine Learning and Deep Learning models
- Build Generative AI applications using LLMs
- Develop Agentic AI and Multi-Agent Systems
- Deploy AI solutions using MLOps and LLMOps
- Work on real-world industry projects
- Prepare for Data Science & AI career opportunities

Program Highlights

01

✓ Instructor-Led Training

Learn from experienced industry professionals through interactive live sessions. Get real-time insights, ask questions, and clarify concepts for a deeper understanding.

02

✓ LMS Access

Get access to our advanced Learning Management System 24/7. Access recordings, study materials, resources, and track your progress anytime, anywhere.

03

✓ Assignments & Case Studies

Strengthen your concepts through well-designed assignments and real-world case studies that enhance problem-solving skills.

04

✓ Industry Projects

Work on real-time industry projects that give you hands-on experience and help you apply your learning to practical scenarios.

05

✓ Capstone Project

Comprehensive end-to-end project to demonstrate your skills, build a strong portfolio, and showcase your ability to deliver real-world solutions.

06

✓ Resume Preparation

Create a professional, job-winning resume that highlights your skills, projects, and achievements to stand out to recruiters.

07

✓ LinkedIn Optimization

Build a powerful LinkedIn profile that showcases your skills and achievements to attract recruiters and grow your professional network.

08

✓ Mock Interviews

Practice with mock interviews conducted by industry experts and get valuable feedback to improve your confidence and performance.

09

✓ Placement Assistance

Get dedicated placement support including job opportunities, referrals, and guidance to help you kickstart your career.

10

✓ Industry Certification

Earn a recognized industry certificate that validates your skills and boosts your credibility in the job market.

LEARN. PRACTICE. BUILD. SUCCEED.
Everything you need to achieve your career goals!

LMS Benefits

01

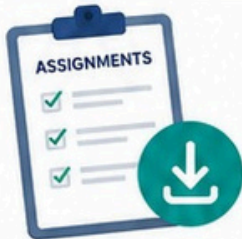

POST CLASS MATERIALS WITH LIVE RECORDED VIDEOS ACCESS

Get lifetime access to live recorded sessions, slides, notes and other study materials anytime, anywhere to revise and strengthen your concepts.

02

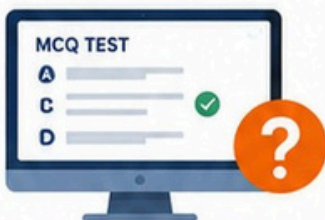

DOWNLOAD SESSION WISE ASSIGNMENTS, COMPLETE AND THEN UPLOAD FOR EVALUATION AND FEEDBACKS

Access session-wise assignments, complete them at your convenience and upload for evaluation with detailed feedback from experts.

03

TEST YOUR KNOWLEDGE WITH MCQs AND PRACTICAL SET OF QUESTIONS UNLESS YOU SCORE $\geq 70\%$

Reinforce your learning by attempting MCQs and practical questions. Keep practicing until you score 70% or more to ensure strong concepts.

04

FILL THE RESUME FORM AND GET YOUR PROFESSIONAL RESUME READY

Fill the resume form with your details and get a professionally crafted resume that highlights your skills and projects.

05

GET INTERVIEWS PREPARATION KIT ON BEHAVIOURAL, TECHNICAL AND PROJECTS RELATED Q&A

Access a comprehensive interview preparation kit with Q&A on behavioural, technical and projects to boost your confidence.

06

REQUEST FOR MOCK-INTERVIEWS BY INDUSTRY MENTOR IN THE LMS

Schedule mock interviews with industry mentors, get real-time feedback and improve your performance.

07

APPEAR FOR DV ELITE TEST TO QUALIFY FOR PLACEMENT SUPPORT

Clear the DV Elite Test to become eligible for placement assistance and connect with top hiring partners.

08

GET YOUR TRAINING & INDUSTRY DATA SCIENCE & AI SKILLS CERTIFICATES

Earn recognized Training and Industry Data Science & AI skill certificates to validate your expertise and boost your career.

Program Structure

Module-1: Data Management

Data is the foundation of every AI and Analytics project. This module develops strong programming and data handling capabilities.

SQL Server

Topics Covered:

- Database Fundamentals
- Data Modeling
- DDL, DML & TCL Commands
- Joins & Subqueries
- CTEs
- Window Functions
- Stored Procedures
- Views & Indexes
- Query Optimization
- Reporting Queries

Applications:

- Customer Analytics
- Sales Analytics
- Banking Analytics
- Portfolio Reporting

Python Programming

Topics Covered:

- Python Fundamentals
- Data Types
- Loops & Functions
- OOP Concepts
- File Handling
- Exception Handling
- API Integration
- Python Libraries

Applications:

- Data Processing
- Automation
- AI Development
- Model Building

SAS Base & Advanced Programming

Topics Covered:

- DATA Step Programming
- PROC SQL
- Reporting Procedures
- Macro Programming
- Data Manipulation
- Statistical Procedures

Applications:

- Banking Analytics
- Insurance Analytics
- Healthcare Analytics
- Regulatory Reporting

PySpark / Scala Programming

Topics Covered:

- Distributed Computing
- Spark Architecture
- RDDs
- DataFrames
- Spark SQL
- Machine Learning with Spark

Applications:

- Big Data Analytics
- Customer Analytics
- Large Scale Data Processing

Module-2: Data Analysis & Visualization

This module focuses on transforming data into business insights and interactive dashboards.

Excel + AI

Topics Covered:

- Advanced Excel
- Power Query
- Pivot Tables
- Dashboard Development
- Excel Copilot
- AI-Assisted Analysis

Applications:

- MIS Reporting
- Financial Reporting
- Business Analytics

Power BI

Topics Covered:

- Data Modeling
- DAX
- Power Query
- Dashboard Design
- Row-Level Security
- AI Visuals

Applications:

- Executive Dashboards
- KPI Monitoring
- Operational Reporting

Tableau

Topics Covered:

- Tableau Desktop
- Calculated Fields
- Dashboard Design
- Storytelling
- Advanced Visualizations

Applications:

- Customer Analytics
- Marketing Analytics
- Business Intelligence

Module-3: Data Mining & AI

This module focuses on extracting insights, building predictive models, and developing intelligent AI systems.

Python Statistics

Topics Covered:

- Descriptive Statistics
- Probability
- Hypothesis Testing
- Correlation Analysis
- Regression Analysis
- Statistical Inference

Applications:

- Risk Analytics
- Marketing Analytics
- Customer Analytics

Python Machine Learning

Topics Covered:

- Supervised Learning
- Linear Regression
- Logistic Regression
- Decision Trees
- Random Forest
- Gradient Boosting
- Unsupervised Learning
- Clustering
- Segmentation
- Dimensionality Reduction

Applications:

- Credit Risk Modeling
- Churn Prediction
- Customer Segmentation
- Sales Forecasting

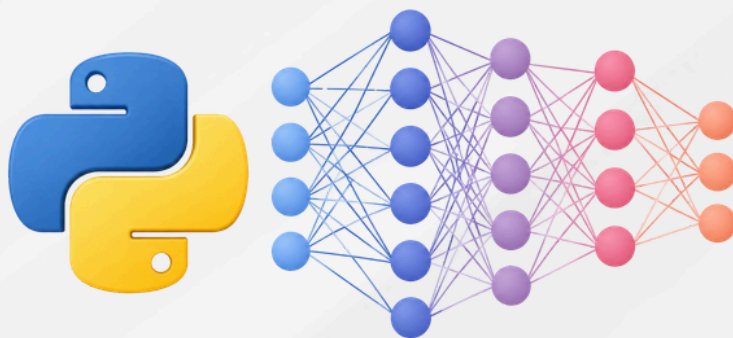

Python Deep Learning

Topics Covered:

- Neural Networks
- TensorFlow
- Keras
- CNN
- RNN
- LSTM

Applications:

- Image Classification
- Fraud Detection
- Predictive Analytics

Generative AI

Topics Covered:

- Large Language Models (LLMs)
- Prompt Engineering
- Retrieval Augmented Generation (RAG)
- Fine Tuning Concepts
- AI Assistants
- Enterprise AI Applications

Applications:

- Chatbots
- Document Intelligence
- Content Generation
- Business Automation

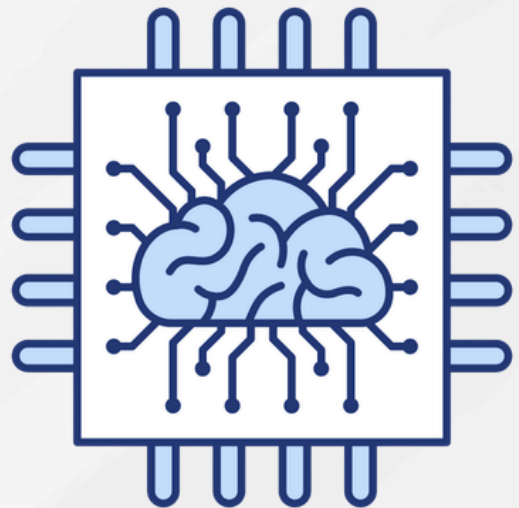

Agentic AI

Topics Covered:

- AI Agents
- Multi-Agent Systems
- LangChain
- LangGraph
- CrewAI
- AutoGen

Applications:

- Autonomous Business Processes
- AI Research Agents
- Workflow Automation
- Decision Support Systems

Module-4: Cloud Deployment

Organizations require AI solutions that can be deployed and managed efficiently. This module covers AI deployment and operationalization.

MLOps

Topics Covered:

- Model Versioning
- CI/CD Pipelines
- Model Deployment
- Monitoring
- Performance Tracking

Applications:

- Production AI Systems
- Enterprise ML Deployment

LLMOps

Topics Covered:

- LLM Deployment
- Prompt Monitoring
- Model Evaluation
- AI Governance
- Cost Optimization

Applications:

- Enterprise Generative AI Solutions
- AI Assistant Deployment

AIops

Topics Covered:

- AI Infrastructure Monitoring
- Predictive Maintenance
- Automated Incident Detection
- Intelligent Operations

Applications:

- IT Operations
- Cloud Operations
- Enterprise Automation

Instructors

Learn from Industry Experts & Global Leaders in Data Science & AI

Get trained by seasoned industry experts, global leaders, and experienced practitioners in Data Science, Artificial Intelligence, Generative AI, and Agentic AI. Our mentors bring years of real-world experience from leading multinational organizations across diverse industries, helping you bridge the gap between theory and practical implementation.

At DV Analytics, learning goes beyond concepts and coding. You will gain hands-on exposure to solving real-time business problems, building AI-driven solutions, working on industry projects, and understanding how Data Science & AI are applied in real-world environments.

What Makes Our Mentors Different?

- Industry-focused training with real business use cases
- Hands-on learning through projects, assignments, and case studies
- Practical exposure to AI solution development and deployment
- Personalized mentorship and career guidance
- Insights into industry best practices, tools, and frameworks
- Interview preparation and professional development support

Our mentors are alumni and professionals from premium institutions and have worked across leading global organizations in Banking, Healthcare, Retail, Telecom, E-Commerce, Manufacturing, and Technology sectors. Their extensive international experience enables learners to understand industry expectations and build job-ready skills.

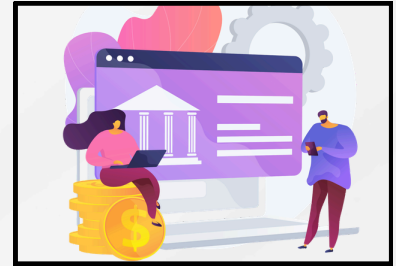

At DV Analytics, you don't just get trained you get mentored, guided, and empowered to build a successful career path in Data Science & AI. From foundational concepts to advanced AI applications, our mentors support your journey every step of the way, helping you transform knowledge into practical expertise and career success.

Industry Projects

Participants will work on real-world projects across multiple industries.

Banking & Financial Services

- Credit Risk Modeling
- Loan Default Prediction
- Customer Segmentation

Telecom

- Customer Churn Prediction
- Customer Lifetime Value

Insurance

- Claims Analytics
- Fraud Detection

Retail & E-Commerce

- Recommendation Engine
- Demand Forecasting

Healthcare

- Patient Analytics
- Disease Prediction

DV Analytics
Transforming You

OUR Success STORY

Sujit Das
From : Odisha

SKILL SETS : SAS,SQL,Alteryx & Tableau **COMPANY :** Landmark
EDUCATION : BSC **OFFERED SALARY :** 150% hike
EXPERIENCE : 2+

Sujit always thought of Data Science as for Btech graduates and finally his perception changed after seeing his brother in law into the data science job. He prepared harder to the end and finally made his possible never left any single assignments in the class and that became his strength.
Today All the very best my champion
Regards, Dev Sir DV Analytics

OUR Success STORY

Varun Awale
Analyst
From : Indore, MP

SKILL SETS : SAS,SQL,Python & Tableau **COMPANY :** Grant Thornton
EDUCATION : BCOM **OFFERED SALARY :** 150% hike
EXPERIENCE : 2+

Varun who joined with his friend Saksham's reference, Varun came to Bangalore 1.5 months back but his dedication towards classes and assignments brought this success within 4.5 months of the training. He proved that a BCOM graduate can bag the same package as a B.Tech graduate if you have the knowledge and confidence. All the best champion

OUR Success STORY

Nishant Baral
Risk Analyst
From : Bhubaneswar, Odisha

SKILL SETS : Excel, SAS,SQL, Python & Tableau **COMPANY :** Wells Fargo
EDUCATION : B.TECH **OFFERED SALARY :** 150% hike
EXPERIENCE : 2+

Nishant who did his engineering in 2019 and has never been into his desired job and was not at all happy with what he was doing. Hence after hearing his friend Mohit Panda success, he decided to join DV Analytics. From day one he came to Bangalore and studied hard and not a single day he missed classes and assignments. I remember when he came to me and asked for his resume and I simply took his interview to know his preparation level. I was very happy about his performance and hence provided his resume and referred to Amazon and HCL immediately. However, due to his nervousness he could not crack these two companies. He prepared harder and started noting down his weakness and worked on it.
Regards, Dev Sir DV Analytics

Transforming You

OUR Success STORY

Krishna
SAS Reporting Analyst
From : Bhubaneswar, Odisha

SKILL SETS : Excel, SAS and SQL **COMPANY :** Kotak Bank
EDUCATION : B.Tech **OFFERED SALARY :** 200% hike
EXPERIENCE : 1+

Krishna joined DV from the reference of his friend Prentam. Krishna took 7 months to get this job but his preparation today made him a specialist in SAS and SQL. Krishna always remained specific to what he was doing. He went against parents' decision to join DV and proved that he is right.
Today All the very best champion

OUR Success STORY

Amit
Manager
From : Pune, Maharashtra

SKILL SETS : SAS,SQL,Python and ML-Tableau **COMPANY :** Bajaj Finserv
EDUCATION : B.Tech **OFFERED SALARY :** 350% hike
EXPERIENCE : 6+

Amit who lost job in Dubai during the pandemic, came down to India. He was looking for a stable job and finally with a friend reference he joined DV and dedicated himself to a Data Science job. He was very serious from the beginning and kept this as a last chance and a last hope, he prepared every bit of it. He proved it. Finally, I am sure he is an asset to Bajaj. All the very best Amit.

OUR Success STORY

Kunal Nayak
From : Balasore, Odisha

SKILL SETS : SAS,SQL,Python Excel & Tableau **COMPANY :** EXL & Barclays Bank
EDUCATION : B.Tech **OFFERED SALARY :** 250% hike
EXPERIENCE : 4+

Kunal who joined DV from his classmate's reference, Kunal took 6 months to bag this offer as he got many health issues during the training period. However, he never stopped challenging himself even though he was not able to walk due to back pain. He counted his success from many obstacles. He was determined to get success and never care about his health and sufferings. During the mock interview it was known that he is very logical and has prepared in a systematic manner. And that allowed him to bag this offer so quickly. Really very very proud of you.

OUR Success STORY

Rajat
From : UP

SKILL SETS : Excel,SQL,Python, Tableau SAS, Alteryx and ML **COMPANY :** Affine Analytics
EDUCATION : B.A **OFFERED SALARY :** 150% hike
EXPERIENCE : 2+

Rajat has gone through many old phases of his life in last 2 years. He lost his father, sister and finally got many financial liabilities. He never broken himself and was surviving in a tech support job. It was Sakshi Bhardwaj our old student who referred him to DV. He had no idea of what situation he went through and he never shared with me before or after joining DV. He left his job and came to Bangalore to pursue this course and taken loan from people for this course and limited stay in Bangalore. He always keeps smiling got to know about his background just 15 days back in a birthday party where his close friend revealed that to me.
Regards, Dev Sir DV Analytics

DV Analytics
Transforming You

OUR Success STORY

Chesta
Sr.Analyst
From : Madhya Pradesh

SKILL SETS : Excel,SQL,SAS, Tableau and Python **COMPANY :** JP Morgan
EDUCATION : BA **OFFERED SALARY :** 12-15 lacs pa
EXPERIENCE : 2+

Chesta is a BA graduate and was aspiring to be an IAS. Initially 3 years post graduation she prepared for UPSC exam. However, her need for earning and quick employment brought her to this decision for joining the Data Science course at DV Analytics. She had enough questions that whether a non-technical graduate can pursue a career in data science. And now she proved it. Yes, any graduate can be a data scientist. She prepared very systematically. She came down to Bangalore and occupied a place in the institute where she will come regularly and dedicate a full day preparation and within just 2 months she bagged this offer and proved it. We all are very sure about your talents and you will surely rock as an asset to JP Morgan.
